

WHAT IS CLAIMED IS:

1. An oral pharmaceutical composition comprising as
pharmaceutically active compounds a combination of an antiallergy-effective amount
5 of a leukotriene inhibitor or a pharmaceutically acceptable salt thereof, and of a
decongestant-effective amount of pseudoephedrine or a pharmaceutically acceptable
salt thereof, and further comprising pharmaceutically acceptable carriers or excipients
with the proviso that the compositions do not contain an antihistamine.
- 10 2. A composition of Claim 1 wherein said leukotriene inhibitor is
a leukotriene receptor antagonist.
3. A composition of Claim 2 wherein said leukotriene receptor
antagonist is montelukast or a pharmaceutically acceptable salt thereof.
15
4. A composition of Claim 2 wherein said leukotriene receptor
antagonist is montelukast sodium.
5. A composition of Claim 1 in solid dosage form.
20
6. A composition of Claim 5 wherein said dosage form is a tablet.
7. A composition of Claim 6 wherein said tablet contains
montelukast sodium in an amount selected from 4mg to 20 mg, and pseudoephedrine
25 or a pharmaceutically acceptable salt thereof in an amount selected from 60 mg to 240
mg.
8. A composition of Claim 6 wherein said tablet contains
montelukast sodium in an amount selected from 4 mg, 5 mg, 10 mg and 20 mg, and
30 pseudoephedrine or a pharmaceutically acceptable salt thereof in an amount selected
from 60 mg, 120 mg and 240 mg.
9. A method for the treatment of allergic rhinitis or asthma which
comprises administering to a patient in need of such treatment a pharmaceutical
35 composition of Claim 1.
